## Introduction

COSMX was established in 2007 and headquartered in Zhuhai. It has three main production bases in Zhuhai, Chongqing, Zhejiang and has established a factory in India. COSMX is one of the worldwide major suppliers of consumer Li-ion batteries, and has long served for world's well-known customers in the field of PCs, notebooks, tablets, smart phones, smart wearables, power tools, drones and other fields.

In the field of power batteries, COSMX have been recognized as qualified supplier for many automotive manufacturers after years of accumulation. At present, COSMX has entered the fields of electric motorcycles, automotive start-up batteries, energy storage, and move forward to BEV and high-voltage energy storage fields.

At the same time, COSMX has a group of talented and professional R&D technicians on electrochemistry, materials science, physical chemistry, machinery and automation, computing and information systems, which formed stronger support for the development of the company by accumulated a wealth of technical achievements and won many industry and national honorary awards.

1998  
R&D of Li-ion battery started
